Ecoforma Wheels

15/16" Tread Width Ecoforma Round

Ecoforma wheels offer the advantages of both hard and soft tread materials in a single wheel. Like a hard tread wheel, Ecoforma rolls easily and is very durable. Like a soft tread wheel, it rolls quietly, protects floors and resists impacts with a cushion ride. It also features maximum weatherability, low temperature flexibility, resistance to chemicals, water and steam, and rejects floor debris such as metal shavings. Non-marking thermoplastic elastomer tread is permanently bonded to durable polyolefin wheel core.

Temperature range: -45°F to +180°F intermittent service (120°F continuous service).

Hardness: 70(±5) Durometer Shore A scale.

Encore Ecoforma Wheels • Round Grey Tread • Capacity up to 480 lbs each

Pedestal Precision Ball Bearing (PPBB) Option (2" tread width): Change the 10th digit to "5" (Example: E5.00006.575). 2-Piece Delrin Bearing With Bushing Option (2" tread width): Change the 10th digit to "1" (Example: E5.00006.571). Less Bearing Option (2" tread width): Change the 10th digit to "6" (Example: E5.00006.576).

2" Tread Width Ecoforma Round

Ecopoly Wheels

1¹/₄" Tread Width Ecopoly

Industrial strength polyurethane tread bonded to "ribbed" polyolefin core. This design adds strength for loads subjected to shock and hard impacts. Tread is molded in, around and through a ribbed extension of the core to prevent debonding. Standard colors are burgundy tread on grey core. **Not recommended for conditions of continuous operation such as tow-line, etc.**

Temperature range: -45°F to +180°F. **Hardness:** 55(±5) Durometer Shore D scale.

Encore Ecopoly Wheels • Capacity up to 800 lbs each
